

SECTION 2: OF PUBLIC SEWER

Section 2.01 Permission Required:

No person shall uncover, make any connections with or opening into, use, alter or disturb any public sewer or appurtenance without first obtaining permission from the District and paying all fees and charges as established under the provisions of this Ordinance.

Section 2.02 Protect from Damage:

- A. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance or equipment which forms any part of the District's public sewer system or any private sewer facility which may directly or indirectly affect any of the District's public sewer system.
- B. Any person violating the provisions of this Section shall be responsible for any and all costs and damages caused to the District by such violations.

Section 2.03 Connection to the Public Sewer Required:

- A. When ordered by the District, or when and where the state, county, or city public health department determines a health hazard exists or is imminent, the owner of all structures, as defined within this Ordinance, situated within the limits of the District and abutting on any street, alley or right-of-way or in proximity thereto in which there is located a public sewer of the District, is hereby required at his expense to connect such structures directly with the proper public sewer in accordance with the provisions of this Ordinance, within 90 days after receipt of written, mailed notice to do so, provided said public sewer is within 300 feet of the nearest property line of the property containing such structures; unless otherwise waived by the General Manager upon exigent circumstances.
- B. In the event of a violation of this Section, the District may connect such structures to the public sewer and the owner or occupant of such structures shall be jointly and severally responsible to the District for the cost of such connection in addition to the regular participation charge, monthly service charge and any other reasonable and necessary charges imposed by the District and such costs shall become a lien on the real property pursuant to the applicable provisions of the Health & Safety Code of the State of California.

Section 2.04 Prohibited Discharges:

- A. No person shall discharge or cause to be discharged any storm water, surface water, ground water, roof run off, subsurface drainage, cooling water,

refrigeration or air conditioner cooling water, swimming pool drainage or industrial process waters to any public sewer.

- B. Except as hereinafter provided, no person shall discharge or cause to be discharged any of the following described waters, wastewaters or wastes to any public sewers:
1. Any liquid or vapor having a temperature higher than 150 degree F.
 2. Any water or waste which may contain more than 100 parts per million, by weight, of FOG.
 3. Any gasoline, benzine, naphtha, fuel oil, or other flammable or explosive liquid, solid or gas.
 4. Any garbage that has not been properly shredded.
 5. Any ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feather, fur, plastic, wood, paunch manure, or any other solid or viscous substances capable of causing obstruction to the flow in sewers and/or causing or with the potential to cause SSO's or other interference with the proper operation of the sewage works.
 6. Any waters or wastes having a pH lower than 5.5 or higher than 9.0, or having any corrosive property capable of causing damage or hazard to the structures, equipment, and personnel of the sewage works.
 7. Any waters or wastes containing a toxic or poisonous substance in sufficient quantity to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, or create any hazard in the receiving waters of the sewage treatment plant.
 8. Any waters or waste containing suspended solids of such character and quantity that unusual attention or expense is required to handle such materials at the sewage treatment plant.
 9. Any noxious or malodorous gas or substance capable of creating a public nuisance.
- C. The admission into the public sewers of any wastewater or wastes generated from any nonresidential type use shall conform to SPMUD Ordinance 88-3, the District's ordinance adopting Chapter 14.26 of the Municipal Code of the City of Roseville relating to industrial wastewater.
- D. Discharge from FSE's shall be in conformance with SPMUD Ordinance 09-01, the District's ordinance establishing requirements regarding Fats, Oils, and Grease.

- E. No provision of this Ordinance shall be construed to prohibit any special agreement or contract between the District and any non-residential user whereby waste of unusual strength, characteristic or quantity as determined by this Ordinance may be accepted for treatment, subject to payment therefore. Any agreement made in accordance with this section shall conform to provisions of this Ordinance and Ordinance 88-3.

Section 2.05 Preliminary Treatment:

- A. Where preliminary treatment facilities are provided for any wastewater or wastes, they shall be maintained continuously in satisfactory effective operation, by the owner at his expense.
- B. Grease, oil and sand interceptors, as required by the District, shall be provided for the proper handling of liquid wastes containing grease or any flammable wastes, sand or other harmful ingredients, except that such interceptors shall not be required for private living quarters or dwelling units.
- C. All interceptors shall be of a type and capacity approved by the District, and shall be located as to be readily accessible for cleaning and inspection.
- D. All grease, oil and sand interceptors shall be maintained by the owner, at his expense, in continuously efficient operation, at all times.
