

**SOUTH PLACER MUNICIPAL UTILITY DISTRICT
JOB DESCRIPTION**

Job Title:	Inspector I/II	Department:	Technical Services
Department Head:	District Engineer	FLSA:	Non-Exempt
Probationary Period:	1 year	Revision Date:	02/01/2020

Position Overview:

Under direct supervision from the District Engineer, performs a variety of inspection related duties throughout the District. Inspectors are required to have knowledge and understanding of all aspects of District inspection policies, procedures and requirements and be capable of performing all inspection activities, and related duties as assigned. The two primary areas of inspection responsibilities are construction and source control.

Construction inspections primarily involve inspection of sewer infrastructure, both public and private, including related appurtenances. Inspectors enforce the District’s improvement standards and ordinances governing public and private sewer development.

Source control inspections primarily involve inspection of residential, commercial and industrial sewer facilities for proper operation and maintenance of source control devices. Responsibilities include enforcement of Best Management Practices (BMP’s), the District’s sewer code, rules, regulations and ordinances governing the District’s Fats, Oils, and Grease (FOG) Control Program.

Education/Experience:

Any of the following combinations in the tables below meet the minimum qualifications for education and experience for this position.

Inspector Level I

Education	Experience
Completion of high school / GED	and Three (3) years in collection system maintenance (or related underground utility) or construction of underground utilities.

Inspector Level II

	Education	Experience
A	Completion of high school / GED	and Three (3) years of experience inspecting underground utilities.
B	Associate Degree or higher from an accredited College or University, degree in Construction	and Two (2) years of experience inspecting underground utilities.

	Management or Engineering is desired.
