The foregoing Ordinance was unanimously introduced by all Directors at the regular meeting of said Board of Rocklin-Loomis Municipal Utility District held on the 1st day of April, 1965.

*Sec Minutes 4/1/65*

ROCKLIN-LOOMIS  
MUNICIPAL UTILITY DISTRICT

ADJOURNED MEETING of March 4, 1965  
District Office

March 23, 1965

The adjourned meeting was called to order at 8:15 P. M., with President Gates presiding.

MEMBERS PRESENT: Directors Aitken, Barnes and Gates  
MEMBERS ABSENT: Directors Hebuck and Kosanvich  
STAFF PRESENT: Charles D. Gardner - Acting Manager and Pearl Willard - Secretary  
OTHERS PRESENT: Mr. Francis Lindsay, Mr. Leo Manning, Mr. Werner R. Heimann and Mr. George Willard

President Gates informed all those present that the District's attorney, Mr. William Sweigert, had advised the Board to take no action on Ordinance #7 at tonight's meeting.

Director Barnes made a motion, seconded by Director Aitken, that upon the advice of the District's attorney, the Board take no action on the District's Ordinance #7 at this time.

The motion carried unanimously. Director Hebuck and Kosanvich -- absent.

In answer to Mr. Lindsay's questions, President Gates stated that the Board's action tonight automatically nullified Ordinance #7 and that a new ordinance would have to be introduced amending subdivision connection charges.

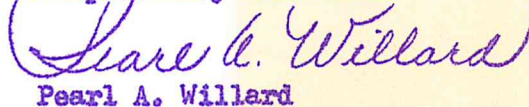

Mr. Leo Manning informed the Board that he had received a letter from the school district relative to connection charges for the new school in Rollingwood and, since he expected title to the Miner's Ravine plant to be cleared within two weeks, requested, in writing, the Board's policy regarding school hookup fees as a formula to follow in fixing the connection rates for the new school. He stated that he would like to keep in line with District policy as the hookup fee would be a credit towards the plant in the event of District control.

Mr. Gates, speaking as an individual member of the Board, stated that the previous formula used by the District for school contracts was figured on the average daily attendance and projected enrollment, but that the policy is somewhat flexible, depending on different factors involved.

Mr. Gates referred Mr. Manning to the District's financial consultant, Mr. Wells, and the District's engineer, Mr. Lovelace for their opinion regarding hookup fees for the Rollingwood school.

There being no further business, the meeting was adjourned to the call of the chair, on the motion of Director Barnes at 8:25 P. M.

Respectfully submitted

Pearl A. Willard
