

SOUTH PLACER MUNICIPAL UTILITY DISTRICT POLICIES

Policy Name:	3005 - EMERGENCY PREPAREDNESS		
Approval Authority:	SPMUD BOARD OF DIRECTORS	Adopted:	
Resolution No.	15-23	Revised:	

PURPOSE

The purpose of this policy is to define and describe active emergency preparedness programs for the District.

POLICY STATEMENT

Section 1. General

It is the policy of South Placer Municipal District to create and maintain an active emergency preparedness program that includes an emergency plan that will help manage the District’s critical functions during any emergency and protect the safety of staff. The District will coordinate the emergency plan, function and response with those responders from the public and private entities and organizations charged with emergency duties.

Section 2: Emergency

Emergency means the actual or threatened existence of conditions of disaster or of extreme peril to the provision of critical District functions and the health and safety of staff or the public, caused by such conditions as fire, severe storm, riot, hazardous materials releases, train derailment, plane crash, earthquake, power outages, dam failures, freezes, water supply contamination, and other conditions which may be beyond the capability of the services, personnel, equipment, and facilities of this District, and may require the combined forces of other political subdivisions to help respond.

Section 3: Emergency Preparedness

The Board of Directors authorizes the establishment of an Emergency Preparedness Program, which consists of the nationally-recognized four phases of emergency management: mitigation, preparedness/planning, response, and recovery. District actions will include developing and maintaining a District-wide emergency plan, identifying and training District staff to activate and use the plan, appointing District staff to critical positions identified in the emergency plan, and appointing staff to represent the District in negotiations or consultations with public and private agencies on matters pertaining to response to the emergency and recovery of damaged systems and financial costs incurred during the emergency.

Section 4: Standardized Emergency Management System

The California Office of Emergency Services regulates the Standardized Emergency Management System (SEMS), which was created by Government Code §8607 following the East Bay Hills Firestorm in 1991. To ensure reimbursement for claims filed after a disaster, all District emergency plans, procedures, and training will follow the SEMS regulations, and coordinate with the District-wide emergency plan.

Section 5: District Emergency Declaration

When an emergency condition arises, the General Manager may, in consultation with the Board President, declare a "District Emergency." The Board must ratify the declaration within 14 days at a regular, special or emergency Board meeting.

Section 6: Authorization During District Emergencies

The General Manager's Declaration of a District Emergency is a public acknowledgement of the serious situation the District faces, and that the District's resources may not be adequate to respond to the emergency. The Board of Directors, in consultation with the General Manager, may delegate to the General Manager the authority to suspend competitive bidding and enter into emergency contracts of up to \$250,000, as authorized by Public Contract Code §20567 and §22050.

Section 7: Mutual Aid

The California Master Mutual Aid Agreement (Government Code §8561, §8615, and §8617) allows for the implementation of mutual aid during threatened, actual, or declared emergencies. The General Manager, in accordance with the Emergency Plan, may request mutual aid assistance from other local government and public agencies, or commit District resources to other agencies requesting aid. The General Manager may sign appropriate documents to effectuate mutual aid and other emergency response agreements.

Section 8: Continuity of Management

The District's emergency plan will list at least two successors to critical staff identified in the plan, including the General Manager. In the event the primary person is unable to respond to an emergency, each successor, in order, may assume all the duties and powers of the primary staff.

Section 9: Status Reports

The General Manager will provide annual reports to the Board of Directors on the progress of the Emergency Preparedness Program. Additional reports will be given to the Board on the effectiveness of the plan and District response within 60 days of the occurrence of a declared District Emergency.
